

The following pages give an example of a simple program for school musicals.

The program design and content is ultimately decided by you, but if you are looking for a place to start, you may use this as a guideline.

When the pages are printed double-sided on the short edge, the program should fold neatly into a booklet.

The Education and Outreach Committee promotes the importance of student participation towards the production and appreciates the inclusion of their efforts in the program, particularly in the Production/Creative Team category.
